

This is **ULTIMATE SOUNDFX** a Collection of 750+ clips for Games, and it's growing all the time!

---

Hello, I'm Theo, Game Dev for System Techs Media, and the creator of this collection.  
I create Games, Songs, Sound FX and ART

---

### Description

All clips are at 44100hz, 16bit Stereo, in wave (lossless audio) format with volume set to -6db.

### To Play

Open the **UltimateSoundFX** Scene in **\Assets\ArtDesireBoutique\Scenes** folder.

Use the Button controls to Play, and Skip through the Sounds.

### How to Access

The directory location to access the files: **\Assets\ArtDesireBoutique\...**

### **Location of Files**

Once the Scene is opened, click on the Radio Object in the inspector. Here you will see that no clip is loaded.

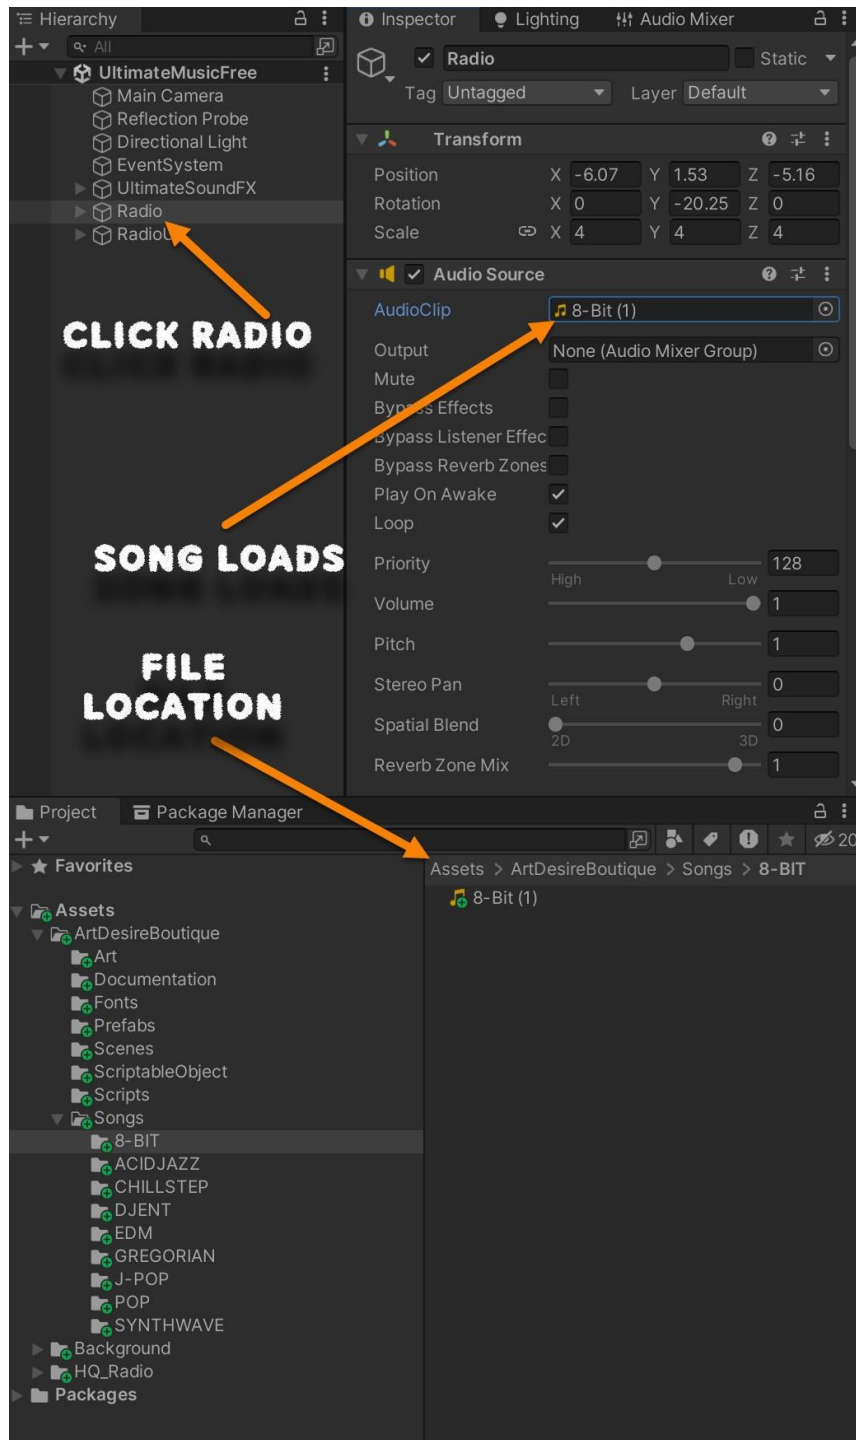

Press **Play** to go into the game view and click on the navigation buttons, to scroll through the tracks, and then Play to listen to them.

In the Inspector click the **Radio** Object again.

Here you will see the current Song clip name.

Highlight the AudioClip in the Inspector **Radio** Object and it will show its location in the Project view.
